Welcome! Before We Dive In...

We want to quickly share a list of essential tools and platforms we'll be using throughout this course.

We'll use these tools to build different types of AI solutions. You might not need all of them - it depends on which projects you choose to follow. The great news is: **they all come with free trials or credits**, so you can test everything without any risk!

Some of these links give us a small kickback at **no extra cost to you** - thank you for supporting the course! 😊

By joining through the links below, you may also unlock **special offers**.
